Toronto To Host Sohn Foundation's First Investment Conference In Canada

North America's investment community will have one more fixture to add to their calendars when the Sohn Conference Foundation launches its first event in Canada later this year.

The Sohn Canada Conference, which is being organized in partnership with the Capitalize For Kids Foundation, is to be positioned as Canada's premier investment forum. So far, the conference has attracted an impressive line-up of guest speakers, including billionaire hedge fund managers James Dinan (York Capital), Marc Lasry (Avenue Capital), Larry Robbins (Glenview Capital) and "Tiger Cub" Lee Ainslie (Maverick Capital).

All proceeds from the conference will be donated to the Hospital for Sick Children, a world leading pediatric hospital in Toronto.

The two day conference, which fuses finance and philanthropy, is the brainchild of Toronto-based analysts Jeff Gallant and **Kyle MacDonald**, who founded the Capitalize For Kids Foundation after recognizing an opportunity to bring together North America's brightest investors to network and share ideas, all for a good cause.

In a bid to differentiate itself from other investment conferences, the Sohn Canada Conference will offer attendees investment insights on an ongoing basis via several leading independent research partners – **Veritas Investment Research**, Horizon Kinetics, and Seeking Alpha Pro, among others.

Besides a star-studded line-up of guest speakers, the conference has also garnered strong support from key industry executives with the Hon. Michael Wilson, Chairman of Barclays Capital Canada, and Former Canadian Minister of Finance joining the Board of Directors, along with Ted Goldthorpe, President of Apollo Investment Corp and Jordan Banks, Global Head of Vertical Strategy at Facebook.

The Sohn Canada Conference will take place on October 23rd and 24th at the Arcadian Court in Toronto. A full list of guest speakers and registration information can be found at www.capitalizforkids.com.
