

Job Description

Job Title Investment Analyst, Energy Sector
Hiring Manager Darryl McCoubrey, Head of Research

Organization Overview Founded in 2000, Veritas is Canada's largest independent equity research firm. We identify investment opportunities and evaluate risks for our clients, providing coverage of TSX 60 companies and special situations. Our unique forensic-accounting-based research has proven to be a key advantage for our clients as they look to improve their investment returns.

Our clients are some of the most respected institutions in both Canada and the U.S., such as regulators, pension funds, and asset managers. Many of our clients have been with us since our inception and we remain committed to meeting their ongoing needs.

Veritas' Guiding Principles:

- Hire, train and develop the best people
- Put our clients first
- Always be unbiased in our views - outcomes are seldom by chance
- Turn intelligence into ideas and actions
- Facts reveal truths - lead with forensic accounting-based principles

Our mission is to be the trusted source of independent research that helps investors make better investment decisions.

Job Type Full-time

Travel % 10%

Job Description As the lead analyst covering the Canadian energy sector, you will perform fundamental equity research and forensic accounting analysis to deliver market-relevant insights to our clients. In this role, you will have the opportunity to carve out your own specialty by developing your own coverage universe, focusing your time on analysis that matters, and saying what you really think about a company. At Veritas, our analysts are afforded a high degree of autonomy and have access to some of the largest investors in Canada.

Key Responsibilities:

- Taking the lead on analysis and coverage of the Canadian energy sector.
- Researching and monitoring key sector drivers.
- Assessing companies' business models, operational outlook, financial reporting, and corporate governance.
- Performing detailed financial, accounting, and valuation analysis.
- Making recommendations and publishing regular reports on coverage names.
- Making regular presentations and communicating your views to clients

Job Requirements

- Post-secondary degree, preferable majoring in accounting, finance, or business
- Accounting or financial designations are required. Preference will be given to candidates with a CPA.
- Prior experience researching, analyzing, transacting or investing in the Canadian energy sector.
- Advanced understanding of energy sector dynamics, valuation principles and financial reporting.
- Extensive experience in analyzing and modeling complex financial and non-financial drivers of company performance.
- Capable of identifying and communicating investment ideas, in both written and verbal form.
- Ability to organize, direct and complete research tasks in a timely manner, both individually and as part of a team.
